The Aeronautical Journal of the Royal Aeronautical Society

INCORPORATING THE INSTITUTION OF AERONAUTICAL ENGINEERS AND THE HELICOPTER ASSOCIATION OF GREAT BRITAIN

VOLUME LXXXVI

JANUARY—DECEMBER 1982

The following is based on the indexing of the RAeS Publications Index 1897-1977, published by the Society.

AERODYNAMICS
- Aerodynamics — retrospect and prospect, E. W. E. Rogers, pp 43-67 (Feb.).
- Attachment of ventilated jets to rough boundaries, R. M. El-Taher, pp 380-383 (Dec.).
- Experimental determination of the aerodynamic characteristics of ski-jumpers, A. J. Ward-Smith and D. Clements, pp 384-391 (Dec.).
- Hydrodynamics and aerodynamics — cross fertilisation in research and design, H. H. Pearcy, pp 1-22 (Jan.).
- Peaked velocity profile generation, E. M. Laws, pp 109-111 (March).
- The effect of backlash and trailing-edge strips on the flutter speed of a two-dimensional model of a tailplane with tab, B. Emslie and A. Goldman, pp 337-340 (Nov.).
- The effects of turbulence and surface roughness on drag of spheres in jet, R. S. Neve and F. B. Jaafar, pp 331-336 (Nov.).
- The use of Dimensional Analysis in aerodynamics: an historical note, pp 176-178 (May).

AEROFOILS
- A theoretical model for predicting the performance of circulation controlled aerofoils and cascades, C. I. Flint and W. L. Holliday, pp 76-82 (Feb.).
- An experimental investigation of the aerodynamic characteristics of a cascade of circulation controlled aerofoils, C. I. Flint and W. L. Holliday, pp 68-75 (Feb.).

AIRCRAFT DESIGN
- A supersonic V/STOL fighter design project, Dr. J. P. Fielding, pp 252-258 (Aug./Sept.).

AIRLINES
- The credit status of airlines, P. O'Sullivan, pp 168-171 (May).

AIRPORTS
- The airport operators' view, C. J. Bowers, pp 165-168 (May).

AIRWORTHINESS
- A subcontractors' viewpoint, R. W. Howard, pp 212-213 (June/July).
- Education for managers of airworthiness, D. Yeomans, pp 213 (June/July).
- Keynote address for Management of Airworthiness, M. Morrison, pp 205-207 (June/July).
- Operation of new aircraft, G. B. Ratcliffe, pp 208-209 (June/July).
- Regulatory authority viewpoint, J. C. Chaplin, pp 207 (June/July).
- The aircraft manufacturer's approach to airworthiness, J. Troughton and R. Grigg, pp 211-212 (June/July).

AIR TRAFFIC CONTROL
- Analog Training Computers (ATC). Model 610, p 100 (March), *pic.*
- Link-Miles IMAGE II visual system using microprocessors generating a landing approach, Cover (March), *pic.*
- The CAA role, R. C. Hooper, pp 229 (June/July).

AIR TRANSPORT
- A regulator's view, T. Bass, pp 171-172 (May).
- A user's view, A. J. Lucking, pp 172-175 (May).
- Aircraft R+D in Europe — a perspective view, J. C. Wimpenny, pp 243-251 (Aug./Sept.).
- Do aeroplanes drive businessmen mad? J. Prothero-Thomas, pp 161-165 (May).
- Maintaining aircraft without factory back up, T. D. Keegan, pp 209-211 (June/July).
- The airport operators' view, C. J. Bowers, pp 165-168, (May).
- The micro revolution comes to civil air transport, M. Ryland, pp 102-108 (March).

ATTER, D.
- Approach and landing systems for the all-weather heliport, pp 222-223 (June/July).

BARTHOLOMEW, P. and SNELL, M. B.
- The application of geometric programming to the structural design of aircraft wings, 259-268 (Aug./Sept.).

BASS, T.
- A regulator's view, pp 171-172 (May).

BHATTACHARYA, A. P.
- Bending of a polar orthotropic circular plate having mixed boundary conditions, pp 233-237 (June/July).

BIGGS, P. D.
- The costs and economics of broadcast satellite systems, pp 127-131 (April).

BLONSTEIN, L.
- System characteristics of direct broadcasting, pp 123-126 (April).

BOOK REVIEWS—AUTHORS
- Angelucci, E. (Editor), World Encyclopaedia of Military Aircraft, p 83 (Feb.).
- Beards, C. F., Vibration Analysis and Control System Dynamics, p 112 (March).
- British Wind Energy Association, Wind Energy for the Eighties, p 392 (Dec.).
- Davies, G. A. O., Virtual Work in Structural Analysis, p 345 (Nov.).
- Douglas. J. F. *et al*, Fluid Mechanics, p 319 (Oct.).
- Etkin, B., Dynamics of Flight — Stability and Control (2nd Ed.), p 393 (Dec.).
- Gidwitz, B., The Politics of International Air Transport, p 83 (Feb.).
- Lowe, P. G., Basic Principles of Plate Theory, p 319 (Oct.).
- Masefield, Sir Peter, To Ride the Storm: The Story of The Airship R101, p 319 (Oct.).
- Moss, J., Basic Computer Knowledge (Modular Company Series), p 200 (May).
- Peery, D. J. and Azar, J. J., Aircraft Structures — 2nd edition, p 392 (Dec.).
- Pollack, H. W., Materials Science and Metallurgy — 3rd edition, p 112 (March).
- Powell, J., Aircraft Radio Systems, p 40 (Jan.).
- Rao, S. S., The Finite Method in Engineering, p 354 (Nov.).
- Taylor, M. J. H., Planemakers: 1 Boeing, p 320 (Oct.).
- Thompson, J. M. T., Instabilities and Catastrophies in Science and Engineering, p 112 (March).
- Wake, W. C., Adhesion and the Formulation of Adhesives — 2nd edition, p 354 (Nov.).
- Window, A. L. and Hollister, G. S., Strain gauge technology, p 392 (Dec.).

BOOK REVIEWS — TITLES
- Adhesion and the Formulation of Adhesives — 2nd edition, W. C. Wake, p 354 (Nov.).
- Advisory Group for Aeronautical Research AGARD/NATO, Multilingual Aeronautical Dictionary, p 83 (Feb.).
- Aircraft Radio Systems, J. Powell, p 40 (Jan.).
- Aircraft Structures — 2nd Edition, D. J. Peery and J. J. Azar, p 392 (Dec.).
- Basic Computer Knowledge (Modular Company Series), J. Moss, p 200 (May).
- Basic Principles of Plate Theory, P. G. Lowe, p 319 (Oct.).
- Dynamics of Flight-Stability and Control (2nd Edition), B. Etkin, p 392 (Dec.).
- Fluid Mechanics, J. F. Douglas, *et al*, p 319 (Oct.).
- Instabilities and Catastrophies in Science and Engineering, J. M. T. Thompson, p 112 (March).
- La Technologie des Experiences Scientifiques Spatiales, p 238 (June/July).
- Materials Science and Metallurgy — 3rd edition, H. W. Pollack, p 112 (March).
- Multilingual Aeronautical Dictionary, Advisory Group for Aeronautical Research AGARD/NATO, p 83 (Feb.).
- Offshore Aviation in the North Sea, p 200 (May).
- Planemakers: 1 Boeing, M. J. H. Taylor, p 320 (Oct.).
- Strain Gauge Technology, A. L. Window and G. S. Holister (Editors), p 392 (Dec.).
- The Finite Method in Engineering, S. S. Rao, p 354 (Nov.).
- The Politics of International Air Transport, B. Gidwitz. p 83 (Feb.).
- To Ride the Storm: The Story of The Airship R101, Sir Peter Masefield, p 319 (Oct.).
- Vibration Analysis and Control Systems Dynamics, C. F. Beards, p 112 (March).
- Virtual Work in Structural Analysis, G. A. O. Davies, p 354 (Nov.).
- Wind Energy for the Eighties, British Wind Energy Association, p 392 (Dec.).
- World Encyclopaedia of Military Aircraft, E. Angelucci (Editor), p 83 (Feb.).

BOWERS, C. J.
- The airport operators' view, pp 165-168 (May).

BROWN, Captain E. M.
- The city helistop, pp 214-215 (June/July).

BRUNTON, G., WILLOCK, R. R. and VOISEY, M. A.
- The low temperature properties of aviation fuels, pp 313-319 (Oct.).

CLOUSTON, D.
- L-SAT direct broadcast applications, pp 134-140 (April).

CHAPLIN, J. C.
- Regulatory authority viewpoint, p 207 (June/July).

CHAPLIN, J. and ROSETTI, C.
- A European view of DBS, pp 148-151 (April).

CHARNLEY, Sir JOHN
- Aeronautical research: some current influences and trends, pp 283-293 (Oct.).

CHEESEMAN, I. C.
- Environment problems and solutions, pp 223-229 (June/July).

CLEMENTS, D. and WARD-SMITH, A. J.
Experimental determination of the aerodynamic characteristics of ski-jumpers, pp 384-391 (Dec.).

DECKERT, W. H. and ROBERTS, L.
Recent progress in V/STOL technology, pp 294-305 (Oct.).

DUROSE, Sqn. Ldr. C. G.
An evaluation of some experimental data on the cost effectiveness of flight simulators, pp 90-93 (March).

EASBY, Sqn. Ldr. M. and SKELLERN, Sqn. Ldr. I.
A training module for flight simulator instructors in the Royal Air Force, pp 96-97 (March).

ECONOMICS
The credit status of airlines, P. O'Sullivan, pp 168-171 (May).

EDUCATION AND TRAINING
A training module for flight simulator instructors in the Royal Air Force, Sqn. Ldr. I. Skellern and Sqn. Ldr. M. Easby, pp 96-97 (March).
An evaluation of the Nimrod Maritime Crew Trainer — a case study, A. G. Parfitt, pp 86-89 (March).
Determining the training effectiveness of flight simulators: some basic issues, Dr. J. M. Rolfe, pp 85-86 (March).
Lost aircrew training devices, M. A. G. Knight, pp 98-101 (March).
The role of information feedback in aircrew training and its impact on the debriefing facilities, Dr. W. L. Waag, pp 94-96 (March).

EL-TAHER, R. M.
Attachment of ventilated jets to rough boundaries, pp 380-383 (Dec.).

EMSLIE, B. and GOLDMAN, A.
The effect of backlash and trailing-edge strips on the flutter speed of a two-dimensional model of a tailplane with tab, pp 337-340 (Nov.).

ENVIRONMENT
Environment problems and solutions, R. W. Howard, pp 212-213 (June/July).
Hovercraft environmental noise: a review and future prospects, J. W. Leach, pp 29-39 (Jan.).

FIELDING, Dr. J. P.
A supersonic V/STOL fighter design project, pp 252-258 (Aug./Sept.).

FLACH, D.
A commercial view of DBS, pp 153-154 (April).

FLINT, C. I. and HOLLIDAY, W. L.
An experimental investigation of the aerodynamic characteristics of a cascade of circulation controlled aerofoils, pp 68-75 (Feb.).

FLINT, C. I. and HOLLIDAY, W. L.
A theoretical model for predicting the performance of circulation controlled areofoils and cascades, pp 76-82 (Feb.).

FREE, F. W.
The IFR heliport, pp 219-222 (June/July).

FUELS
The application of dynamic cold neutron fluroscopy for the visualisation of fuel and oil system operating characteristics in gas turbine development, P. A. E. Stewart, pp 23-28 (Jan.).
The low temperature properties of aviation fuels. G. Brunton, R. R. Willock and M. A .Voisey, pp 313-319 (Oct.).

GIBBINGS, J. C.
The use of Dimensional Analysis in aerodynamics: an historical note, pp 176-178 (May).

GOLDMAN, A. and EMSLIE, B.
The effect of backlash and trailing-edge strips on the flutter speed of a two-dimensional model of a tailplane with tab, pp 337-340 (Nov.).

GRIGG, R. and TROUGHTON, J.
The aircraft manufacturer's approach to airworthiness, pp 211-212 (June/July).

HAINES, A. B.
Turbulence modelling, 269-277 (Aug./Sept.).

HASTINGS, J. F. C.
Reception problems and options, pp 144-146 (April).

HAYNES, B.
The business opportunities presented by DBS, pp 152-153 (April).

HELIPORTS
Approach and landing systems for the all-weather heliport, D. Atter, pp 222-223 (June-July).
Environment problems and solutions, I. C. Cheeseman, pp 223-229 (June/July).
The CAA role, R. C. Hooper, pp 229 (June/July).
The city helistop, Captain E. M. Brown, pp 214-215 (June/July).
The IFR heliport, F. W. Free, pp 219-222 (June/July).
The role of the local planning authority, A. J. R. Wade, pp 230-232 (June/July).
The urban heliport, D. J. Ward, pp 216-219 (June/July).

HOLLIDAY, W. L. and FLINT, C. I.
An experimental investigation of the aerodynamic characteristics of a cascade of circulation controlled aerofoils, pp 68-75 (Feb.).
A theoretical model for predicting the performance of circulation controlled aerofoils and cascades, pp 76-82 (Feb.).

HOOPER, R. C.
The CAA role, pp 229 (June/July).

HOWARD, R. W.
A subcontractor's viewpoint, pp 212-213 (June/July).

JAAFAR, F. B. and NEVE, R. S.
The effects of turbulence and surface roughness on drag of spheres in jet, pp 331-336 (Nov.).

JEFFERIS, A. K.
Other services that may be associated with direct broadcasting, pp 131-133 (April).

JONES, R. E.
The requirements and the effects of impairments, pp 141-144 (April).

KARMAKAR, R.
Vibration of waffle cylinders, pp 350-353 (Nov.).

KEEGAN, T. D.
Maintaining aircraft without factory back up, pp 209-211 (June/July).

KERR, T. H.
The role of the research establishments in the developing world of aeroapace, pp 359-369 (Dec.)

KNIGHT, M. A. G.
Lost aircrew training devices, pp 98-101 (March).

LANCHESTER MEMORIAL LECTURE
Aerodynamics — retrospect and prospect, E. W. E. Rogers, pp 43-67 (Feb.).

LAWS, E. M.
Peaked velocity profile generation, pp 109-111 (March).

LEACH, J. W.
Hovercraft environmental noise: a review and future prospects, pp 29-39 (Jan.).

LUCKING, A. J.
A user's view, pp 172-175 (May).

McNAMARA, J. and SEABRIDGE, A. G.
Integrated aircraft avionics and powerplant control and management systems, pp 371-379 (Dec.)

MAINTENANCE AND REPAIR
Maintaining aircraft without factory back up , T. D. Keegan, pp 209-211 (June/July).

MANAGEMENT
Education for managers of airworthiness, D. Yeomans, pp 213 (June/July).
Keynote address for Management of Airworthiness, M. Morrison, pp 205-207 (June/July).

MORRISON, M.
Keynote address for Management of Airworthiness, pp 205-207 (June/July).

NEVE, R. S. and JAAFAR, F. B.
The effects of turbulence and surface roughness on drag of spheres in jet. 331-336 (Nov.).

NOISE
Hovercraft environmental noise: a review and future prospects, J. W. Leach, pp 29-39 (Jan.).

O'SULLIVAN, P.
The credit status of airlines, pp 168-171 (May).

OXLEE, Wg. Cdr. G. J.
Aerospace reconnaissance and its exploitation, pp 321-330 (Nov.).

PAGE, Sir FREDERICK, LECTURE
Aeronautical research: some current influences and trends, Sir John Charnley, pp 283-293 (Oct.).

PARFITT, A. G.
An evaluation of the Nimrod Maritime Crew Trainer — a case study, pp 86-89 (March).

PEARCY, H. H.
Hydrodynamics and aerodynamics — cross fertilisation in research and design, pp 1-22 (Jan.).

PHOTOGRAPHS

Aircraft
A300 B model on sting in 5m tunnel, p 54 (Feb.).
A310, Cover (Aug./Sept.).
Augmentor VTOL aircraft, XV-4 (1960s), p 295 (Oct.).
Augmentor wing aircraft (wind-tunnel model), p 297 (Oct.).
BAe 146, Cover (Oct.).
BAe 146, p 288 (Oct.).
Boeing 757, Cover (May).
Boeing 757, p 288 (Oct.).
Cockpit mock-up of a supersonic V/STOL fighter, p 255 (Aug./Sept.).
De Havilland C8A (Modified), p 297 (Oct.).
General Dynamics twin-engine V/STOL aircraft (model in 11 ft wind-tunnel), p 303 (Oct.).
Grumman tilt-nacelle aircraft, (wind-tunnel model), p 302 (Oct.).

Hawk's cardboard cockpit, p 100 (March).
Early tilt-rotor aircraft, XV-3 (1950s), p 295 (Oct.).
Hypersonic aircraft in flight at M=8·6 in shock tunnel (NPL), p 52 (Feb.).
Jaguar ACT demonstrator, p 291 (Oct.).
Lift-fan VTOL aircraft, XV-5 (1968), p 295 (Oct.).
McDonnell Douglas AV-8B Harrier II, Cover (Feb.).
McDonnell Douglas AV-8B Harrier II, p 284 (Oct.).
NASA/Boeing QSRA, p 298 (Oct.).
Nimrod AEW and Tornado F2, p 285 (Oct.).
Nimrod Maritime Patroler, p 285 (Oct.).
Northrop twin-engine V/STOL aircraft (model in 11 ft wind-tunnel), p 303 (Oct.).
Sea Harrier, p 9 and p 21 (Jan.).
Supersonic V/STOL fighter — an artist's impression, p 252 (Aug./Sept.).
USB aircraft (wind-tunnel model), p 298 (Oct.).
XV-15, p 300 (Oct.).
YOV-10, p 296 (Oct.).

Engines
Dowty Rotol propulsion fan for VT2, p 36 (Jan.).
Rolls-Royce RS 360 Gem Engine, p 26 (Jan.).

Helicopters
Bell JetRanger, Cover (June/July).

Hovercraft
SR N4, p 20 (Jan.).
SR N4 Mk 1, p 33 (Jan.).
SR N4 Mk 3 (Super 4), p 34 (Jan.).
SR N5, p 30 (Jan.).
SR N6 Mk 6, p 32 (Jan.).
Vosper Thornycroft VT2, Cover (Jan.).
Vosper Thornycroft-VT 2, p 35 (Jan.).

Space and spacecraft
BAe, L-SAT 1, Cover (April).

Wind Tunnels
ARA transonic wind tunnel, p 56 (Feb.).
BAe(Warton) 4 ft² tunnel, p 56 (Feb.).
First supersonic wind tunnel, Stanton, p 50 (Feb.).
Model in flight at M=8·6 in shock tunnel (NPL), p 52 (Feb.).
NASA's 40 ft × 80 ft wind-tunnel (Ames Research Centre — 1944), p 294 (Oct.).
RAE 5m wind tunnel at Farnborough, p 54 (Feb.).
RAE 5m wind tunnel at Farnborough, p 292 (Oct.).
RAE boundary layer tunnel at Bedford, p 57 (Feb.).
RAE subsonic/supersonic wind-tunnel, p 56 (Feb.).
Wind-tunnel investigations of several lift fan concepts, p 302 (Oct.).
Wind-tunnel test of 25 ft diameter rotor, p 300 (Oct.).

PINNINGTON, R. J. and WHITE, R. G.
Practical application of the rapid frequency sweep technique for structural frequency response measurement, pp 179-199 (May).

PROBLEM CORNER
p 370 (Dec.)

PROTHERO-THOMAS, J.
Do aeroplanes drive businessmen mad? pp 161-165 (May).

RABIN, S. J.
The ground station market, pp 146-148 (April).

RATCLIFFE, G. B.
Operation of new aircraft, pp 208-209 (June/July).

RECONNAISSANCE
Aerospace reconnaissance and its exploitation, Wg. Cdr. G. J. Oxlee, pp 321-330 (Nov.).

RESEARCH
Aeronautical research: some current influences and trends, Sir John Charnley, pp 283-293 (Oct.).
Aircraft R&D in Europe — a perspective view, J. C. Wimpenny, pp 243-251 (Aug./Sept.).
Hydrodynamics and aerodynamics — cross fertilisation in research and design, H. H. Pearcy, pp 1-22 (Jan.).
The role of research establishments in the developing world of aerospace, T. H. Kerr, pp 359-369 (Dec.).

ROBERTS, L. and DECKERT, W. H.
Recent progress in V/STOL technology, pp 294-305 (Oct.).

ROGERS, E. W. E.
Aerodynamics — retrospect and prospect, pp 43-67 (Feb.).

ROLFE, Dr. J. M.
Determining the training effectiveness of flight simulators: some basic issues, pp 85-86 (March).

ROSETTI, C. and CHAPLIN, J.
A European view of DBS, pp 148-151 (April).

ROTORCRAFT
An advanced helicopter control system, A. F. Saunders, pp 341-349 (Nov.).

RYLAND, M.
The micro revolution comes to civil air transport, pp 102-108 (March).

SATELLITES
A commercial view of DBS, D. Flach, pp 153-154 (April).
A European view of DBS, C. Rosetti and J. Chaplin, pp 148-151 (April).
L-SAT direct broadcast applications, D. Clouston, pp 134-140 (April).
Other services that may be associated with direct broadcasting, A. K. Jefferis, pp 131-133 (April).
Reception problems and options, J. F. C. Hastings, pp 144-146 (April).
System characteristics of direct broadcasting, L. Blonstein, pp 123-126 (April).
The business opportunities presented by DBS, B. Haynes, pp 152-153 (April).
The costs and economics of broadcast satellite systems, P. D. Biggs, pp 127-131 (April).
The ground station market, S. J. Rabin, pp 146-148 (April).
The requirements and the effects of impairments, R. E. Jones, pp 141-144 (April).

SAUNDERS, A. F.
An advanced helicopter control system, pp 341-349 (Nov.).

SIMULATORS
A training module for flight simulator instructers in the Royal Air Force, Sqn. Ldr. I. Skellern and Sqn. Ldr. M. Easby, pp 96-97 (March).
An evaluation of some experimental data on the cost effectiveness of flight simulators, Sqn. Ldr. C. J. Durose, pp 90-93 (March).
An evaluation of the Nimrod Maritime Crew Trainer — a case study, A. G. Parfitt, pp 86-89 (March).
Determining the training effectiveness of flight simulators: some basic issues, Dr. J. M. Rolfe, pp 85-86 (March).
Lost aircrew training devices, M. A. G. Knight, pp 98-101 (March).
RAE simulator, p 292 (Oct.).
The role of information feedback in aircrew training and its impact on the debriefing facilities, Dr. W. L. Waag, pp 94-96 (March).

SKELLERN, Sqn. Ldr. I. and EASBY, Sqn. Ldr. M.
A training module for flight simulator instructors in the Royal Air Force, pp 96-97 (March).

SNELL, M. B. and BARTHOLOMEW, P.
The application of geometric programming to the structural design of aircraft wings, 259-268 (Aug./Sept.).

STEWART, P. A .E.
The application of dynamic cold neutron fluoroscopy for the visualisation of fuel and oil system operating characteristics in gas turbine development, pp 23-28 (Jan.).

STRUCTURES & STRUCTURAL DESIGN
Bending of a polar orthotropic circular plate having mixed boundary conditions, A. P. Bhattacharya, pp 233-237 (June/July).
Deflections of inflated cylindrical cantilever beams subjected to bending and torsion, J. P. H. Webber, pp 306-312 (Oct.).
The application of geometric programming to the structural design of aircraft wings, M. B. Snell and P. Bartholomew, pp 259-268 (Aug./Sept.).

SYMPOSIA, DISCUSSIONS, ETC.
Symposium on Direct Broadcasting by Satellite in Europe, pp 123-154 (April).
Symposium on Flight Simulation — Training techniques, pp 85-101 (March).
Symposium on The Management of Airworthiness, pp 205-213 (June/July).
Symposium on The Real Cost of Air Transport, pp 161-199 (May).
Symposium on Urban Heliports, pp 214-232 (June/July).

TROUGHTON, J. and GRIGG, R.
The aircraft manufactuer's approach to airworthiness,. pp 211-212 (June/July).

VOISEY, M. A., BRUNTON, G. and WILLOCK, R. R.
The low temperature properties of aviation fuels, pp 313-319 (Oct.).

V/STOL
A supersonic V/STOL fighter design project, Dr. J. P. Fielding, pp 252-258 (Aug./Sept.).
Recent progress in V/STOL technology, L. Roberts and W. H. Deckert, pp 294-305 (Oct.).

VIBRATION
Practical application of the rapid frequency sweep technique for structural frequency response measurement, pp 179-199 (May).
Vibration of waffle cylinders, R. Karmakar, pp 350-353 (Nov.).

WAAG, W. L. (Dr.)
The role of information feedback in aircrew training and its impact on the debriefing facilities, pp 94-96 (March).

WADE, A. J. R.
The role of the local planning authority, pp 230-232 (June/July).

WARD, D. J.
The urban heliport, pp 216-219 (June/July).

WARD-SMITH, A. J. and CLEMENTS, D.
Experimental determination of the aerodynamic characteristics of ski-jumpers, pp 384-391 (Dec.).

WEBBER, J. P. H.
Deflections of inflated cylindrical cantilever beams subjected to bending and torsion, pp 306-312 (Oct.).

WHITE, R. G. and PINNINGTON, R. J.
Practical application of the rapid frequency sweep technique for structural frequency response measurement, pp 179-199 (May).

WILLOCK, R. R., VOISEY, M. A. and BRUNTON, G.
The low temperature properties of aviation fuels, pp 313-319 (Oct.).

WIND TUNNELS AND WIND TUNNEL TESTING
Turbulence modelling, A. B. Haines, pp 269-277 (Aug./Sept.).

WIMPENNY, J. C.
Aircraft R&D in Europe — a perspective view, pp 243-251 (Aug./Sept.).

YEOMANS, D.
Education for managers of airworthiness, pp 213 (June/July).
